FOR IMMEDIATE RELEASE

DAVID YOST EARNS NAFI MASTER INSTRUCTOR ACCREDITATION

KALAMAZOO, MI — 3/20/2023 The National Association of Flight Instructors is proud to announce that NAFI member David Yost has earned his fourth NAFI Master Flight Instructor accreditation.

From a young age, Yost had a keen interest in airplanes, building many models as a kid growing up, primarily WW II warbirds. However, this love of airplanes didn't translate into actual flying until later in life. On the advice of a fellow Boy Scout leader who was also a private pilot, Yost took his first flying lesson at age 47 and never looked back. In the 21 years since then, Yost has become a CFII and accumulated just over 3100 hours of flight time, all ASEL.

Yost has always been an active volunteer in one organization or another, and shortly after receiving his Private Pilot certificate, he joined the Civil Air Patrol (CAP) in Lake Elmo, Minnesota. 3½ years later he received his initial CFI and became a CAP flight instructor, and later a CAP Check Pilot. Yost flies almost exclusively through the Civil Air Patrol, and serves as a Mission Pilot, Instructor Pilot, Orientation Pilot, and Check Pilot Examiner. He has endorsed 5 students for the Private Pilot certificate and 2 for the Instrument Rating – all successful on the first attempt. There are several more Private, Instrument, and Commercial students currently training with Yost. Beyond the CAP, Dave serves the Minneapolis FSDO as a FAA Safety Team representative and has given numerous flight safety briefings and presentations in various venues. He has also added a glider rating to his Commercial certificate.

Outside of flying, Yost works as a database administrator for a major insurance company, and is eagerly looking forward to retirement on April 1 2023. He is married to Shawn, his wife of 43 years. They have two sons, and two grandchildren.

*The **NAFI Master Flight Instructor Accreditation** is earned by aviation educators based upon a system of advanced professional standards and peer review. The accreditation identifies and publicly recognizes those teachers of flight who demonstrate an ongoing commitment to excellence, professional growth, and service to the aviation community. The NAFI Master Instructor accreditation is for two years and may be used to renew an FAA flight instructor certificate. Applicants must have been a CFI for two years and have given 1,000 hours of flight instruction. In addition, candidates must meet and document activity in four NAFI Master Instructor categories (Instructor, Educator, Service to the Aviation Community, and Professional Activity).*

*Members of the **National Association of Flight Instructors** work as independent instructors, at flight schools, universities, FBOs, corporate flight departments and in the military. Since 1967, NAFI and its members, who teach in thirty countries, are dedicated to increasing and maintaining the professionalism of flight instruction. NAFI members influence active pilots daily: students working to become pilots, current pilots training to advance their skills with new ratings or certificates and pilots who seek to improve their skills with recurrent training. NAFI also serves as an advocate with industry and government as a voice for flight instruction. NAFI helps shape the current and future direction of flight training. For more information about NAFI or the NAFI Master Instructor program call **866-806-6156** or visit www.NAFINet.org.*
